ISN The 0by25 initiative

- Acute kidney injury (AKI) is potentially preventable and treatable.
- The 0by25 initiative aims to eliminate preventable deaths from AKI across the world by 2025.
- The “GLOBAL SNAPSHOT” program was successfully conducted from September to December, 2014, in order to clarify the present situation of AKI in the worldwide community

The Oby25initiative

GLOBAL SNAPSHOT

- This is a cross-sectional study aimed at establishing the incidence of AKI in different settings around the world.
- Over 320 centers in more than 72 countries participated and data was provided for over 4000 patients.
- From Japan 16 centers took part in this project and data of 90 patients was registered by the approach from JSN.
